The Glenwood movie theater in the Kansas City metro area announced Wednesday that they will be releasing some 114 minutes of never before seen footage from the movie Star Wars: Episode I The Phantom Menace. In a special viewing at 12:01 a.m. on Wed. May 19, Glenwood will project the new images onto a screen via a film projector to as many 400 people in attendance. We suspect that many of those in attendance will have seen the two 2-minute Star Wars trailers, as well as other scenes on various network and cable television programs, said theater assistant manager Dave Hays. Our product is unique, however, because it's pretty much everything else.
