

Jamie Foxx will play Tyson?

Jamie Foxx is going to Mike Tyson's role in the biographical film about the famous boxer. Actor intends to combine the strength and talent of the director of "Ray," Taylor Hackford. Together they want to create a film about the controversial boxer, whose outstanding career in the 80s later overshadowed by scandal - including a conviction for rape and bankruptcy.

"I think that Taylor will help me. We have much in common with each other. Recently, we talked about what will be our next joint project. I think something like that would be great, because everyone still remember the Tyson era. On the other hand it's been so long that it is worthwhile to recall his case "- said Jamie. Foxx has already made an initial interview with the sports star, who once revealed that if he had ever created a film about his life, it would, in his character is portrayed as lead actor in "Soloists". "I contacted with Tyson and I was open to ideas from his hand. Looking at all the biographical films that have arisen, I think the story of his life is most interesting about what I heard. A few people seem aware of this - the actor added an interview with MTV. He also defended former boxer: "He had betrayed me very much of their private secrets, I think we are unusual. It was a guy who does not flies and everyone loved him. And then, when he lost the title of champion, he did everything that was once stupid and frightening. "
